- **Info & Links (list view) to all elements**
- **Home Page**
- **Same for all roles**
- **Think subway map** *Under Construction, etc*

Integration Project

4.List-on-Record redesign

List-on-Record redesign

Diagram will only grow so we need to rethink how user sees list of child elements: the solution we have now is not scalable.

We need better integration between list-on-record and proper list view.

Think of list-on-record as a preview of list view, with *some* but not *all* elements.

Thank You!
